## Additional Information Guide

This Additional Information Guide (Guide) for QBE Comprehensive Car Insurance provides you with more information about how we calculate premium, how excesses work and how we settle claims under this policy.

This Guide applies to and should be read together with the QBE Comprehensive Car Insurance Product Disclosure Statement (PDS) QM8505-0620 and QM8505-0421.

### Premium

Your premium is the cost of buying your policy. It is the amount we set by taking into account things like the chance of you making a claim under your policy, the options you've chosen, the overall cost of claims we expect to pay and our expenses of doing business as well as other commercial factors.

Your premium also includes any discounts you've received, GST and other applicable government fees, duties and charges.

We use many factors in setting your premium. The importance we place on the factors we use can change, and how those factors combine in setting the premium will differ from person to person.

The significant factors we use in setting your premium are:

Factor	Description
<b>Information about drivers listed on your policy</b>	Including their age, whether they are male or female and accidents or incidents they've been involved in over a relevant three year period. Your premium may be higher depending on the type of accident or incident, and how long ago it was.
<b>Information about your car</b>	Including your type of car, where it's kept and what it's used for.
<b>If there is finance on your car</b>	Your premium will be higher if there is finance on your car.
<b>Claims made on your policy</b>	Your premium may be higher for up to three following policy years, after one or more claims on your policy.
<b>If you've chosen an agreed value</b>	The higher the agreed value for your car, the higher your premium will be.
<b>Your selected basic excess</b>	The higher the basic excess you have selected, the lower your premium will be.
<b>Your payment frequency</b>	Your premium will be higher* if you pay for your policy by instalments instead of annually.

\*For policies with a start date on or before 13/05/2022 the premium will be approximately 9% higher before the application of any discounts. For new policies starting on or after 14/05/2022 and for existing policies renewing on or after 25/06/2022 the premium will be approximately 15% higher before the application of any discounts.

## Cover options

An additional premium applies for each option that you add to your policy:

### 'No Excess' Windscreen

We determine the additional premium for this option based on the level of basic excess you have selected. The higher your basic excess, the higher the additional premium for this option.

### Hire Car - Extra

An additional premium applies for this option.

### Choice of Repairer

We determine the additional premium for this option based on your other policy details. It can make your premium up to 10% higher.

## Renewals

Each time you renew your policy, your premium is likely to change even if your insured circumstances haven't changed. This is because we use many factors in setting your premium.

When we set your renewal premium we'll consider how much it was before, and we may limit any increase in that renewal term.

## Discounts

We may offer discounts or other special offers from time to time. A discount that you have received will be displayed in the premium breakdown on your Certificate of Insurance or else included within your premium.

## Excess

### When does an excess apply?

In most cases, you'll need to contribute an amount towards the cost of a claim you make on your policy.

The table on page 3 explains the excesses that apply to common claim types. For other types of claims, we'll tell you what excesses apply when you make a claim.

Please refer to your Certificate of Insurance for the excesses which apply to your policy.

## Claim payment examples

These claims payment examples are based on hypothetical scenarios designed to illustrate how a claim payment might typically be calculated. These claims examples are a guide only and do not form part of your policy's cover.

If you lodge a claim under this policy, it will be assessed and settled in accordance with your policy's terms, including the terms and excesses stated on your Certificate of Insurance.

You should read the PDS and your Certificate of Insurance for full details of cover including the policy limits, conditions and exclusions which apply to your policy.

Each claim example uses AUD currency, inclusive of GST, and assumes the claimant is not registered for GST.

<b>Cost of new car</b>	\$45,400	<p>As Julie's car was not found within 14 days of its theft being reported to the police and we were satisfied her claim was in order, we declared it a total loss.</p> <p>Julie's car met the policy's conditions for a new car replacement because her car:</p> <ul style="list-style-type: none"> <li>• was declared a total loss;</li> <li>• was not under finance*;</li> <li>• was less than 3 years old and she'd bought it new; and</li> <li>• had been driven less than 60,000 km at the time of the theft.</li> </ul> <p>We arranged an available new car of the same make and model.</p> <p>We also paid the stamp duty and initial registration costs.</p>
<b>Hire car costs</b>	\$910	<p>As Julie's car was not found within 14 days, we arranged and paid for the reasonable daily cost of a hire car that suited her mobility needs for 14 days. We paid the hire car provider directly.</p>
<b>Cost of child's booster seat</b>	\$600	<p>As Julie's child's booster seat was in her car when it was stolen, we also paid her the cost of replacing it.</p>
<b>Total claim cost</b>	<b>\$46,910</b>	
<b>Excess</b>	\$700	Julie paid us her basic excess.
<b>Remaining premium instalments</b>	\$240	Before we finalised her claim, Julie paid us her remaining premium instalments for the period of insurance in which her claim was made. Once we settled Julie's total loss claim, by replacing her car, her policy came to an end as our contract with her had been fulfilled
<b>Total paid out by QBE</b>	<b>\$45,970</b>	

\* If Julie's car had been financed and the financier agreed with her car being replaced by QBE, then this policy condition for new car replacement would also have been met.
