

QBE Fleet Risk Management Solutions

# Risk management seminars

QBE's Risk Management seminar is a half day training program specifically suited to those responsible for the care and well being of vehicles and staff.

This program provides information which allows attendees to create their own risk management strategies to help reduce fleet running costs and exposure to accidents.

We cover all the current 'Risk Management' initiatives to determine a suitable outcome for your business

## Key features

- Identify improvements to existing Risk Management System
- Benchmark against similar businesses
- Participate in a group environment
- Open forum environment
