

QBE Fleet Risk Management Solutions

Workplace vehicle safety training

QBE's Workplace Vehicle Safety Program is a hands-on workshop that mixes safety training and risk management education with practical in car activities to make learning enjoyable and effective. Approximately 2 - 3 hours and conducted on site.

An effective workplace vehicle safety strategy helps bring cost reductions to your business. In addition, it will strengthen your occupational health and safety policies by reducing driving related risks to your employees.

Key features

- Improve driver skills
- Reduce vehicle running costs
- Create better road awareness
- Improved driver attitude
- Reduce accident numbers
- Changing workplace culture
- Reduce accident severity
- Help protect drivers
- Lower insurance premium
